There are tentative five in-class team assignments. They are randomly given through the semester, kind of like a measurement of attendance. I will drop the lowest of the homework grades and the lowest of the team grades. Your grade on the final exam will not be dropped under any circumstances. Homework assignments are due at the beginning of class of the due date. Late assignments will not be given any credit. If you have a conflict (3 or more finals on the same day) let me know as soon as possible, no less than a month before the final exam, so I can make arrangements for a different time for you. Also let me know the first week if you need special accommodations for test taking.
