LECTURES AND CLASS PARTICIPATION

Although attendance will NOT be taken, it is recommended that you attend lectures daily since performance in this class is positively related to attendance in lectures.

You are responsible for all information covered in class lectures. **I do not post or give out my notes.** If you miss a class, you should be able to get the notes from one of your classmates. You are encouraged to come to my office hours to discuss the material you missed, but you must first obtain and go over the notes.

Please review the material covered in the previous lecture before coming to class. **Full participation in class activities is expected. It is expected that students will not spend class time on non-class activities such as surfing the internet, texting or sleeping.** Please note that class participation counts for 10% of your total course grade.

PRACTICE PROBLEM SETS

Practice problem sets will be posted on the course website. These will NOT be graded and are for your practice only.

EXAMS

Each exam will have two sections: a multiple-choice section and a short answer section. Please bring a #2 pencil and a **non-graphing/non-scientific/non-financial** calculator to the exam (a ruler is also recommended). **If you bring a graphing calculator or cell phone calculator to the exam, 5 points will be deducted from your grade on that exam.**

Exam material will be based on the lecture notes, in-class assignments and practice problem sets. **None of the exams will be cumulative.**

The midterm will take place on **Tuesday, May 17th** and the **final exam** will take place on **Thursday, May 26th**. All exams will be held during lecture time in the usual classroom.

There will be **no extra credit opportunities.**

MISSED EXAMS
