Course Description: Understanding statistics is an important component of economics, and life in general. For your economics career, this class will be essential when moving on to econometrics, one of the most useful applications of economic knowledge.

Required Materials

Textbook: **The Basic Practice of Statistics** David Moore, William Notz, and

Grading

10% Homework	20% Midterm 1
10% Recitation	20% Midterm 2
10% R Exercises	30% Final Exam

Homework: There will be weekly homework assignments assigned through the Sapling website. These will be due by 5 pm every Friday. You can access assigned homework problems through <http://www.saplinglearning.com/ibiscms/> and using code "mundt". No late homework will be accepted. The two lowest homework grades will be dropped.

Recitation: Recitation attendance is mandatory. Not only will your grade in recitation account for 10% of your final grade in the course, but there will be material provided in recitation that is crucial for success in the course. Your TA is PhD student Kevin Starnes, refer to his syllabus to see how recitation grades are determined.

R Exercises: There will be five simple R assignments and one data project throughout the semester. We will work on these assignments in class the week before its due.

Exams: There will be two midterms throughout the semester. They will consist of multiple choice questions along with a couple of free response questions. You will be allowed to bring a 3x5" index card with notes to refer to during the exam. Any tables required will be provided by the instructor. There will be no make-up exams, unless there is documentation of a medical or family emergency. If you miss an exam, the weight of that exam will be added to the final exam.

Extra Credit: The only extra credit opportunity will be through iClickers. There will be roughly 2-3 clicker questions per lecture. A maximum of five percentage points will be added to your grade for excellent clicker participation. Make sure to register your iClickers, instructions provided here:
