

Amanda Thomas has served as the economist with the Natural Resources and Environment Branch, Office of Information and Regulatory Affairs, Office of Management and Budget for 15 years. In this role, she reviews various environmental, energy, financial and other regulations and policies to ensure consistency with the Administration's regulatory principles and guidelines. She has also served as a program director for the National Science Foundation.

Dr. Thomas received her PhD and MS in economics from the University of Colorado Boulder, and BS in economics and chemical engineering from California State Polytechnic University, Pomona. Her research interest includes cost estimation and technology progress and innovation.
