COURSE OVERVIEW

As a social science, economics studies human behavior. Specifically, economics is the study of how economic agents choose to allocate scarce resources to satisfy their wants.

This course will introduce the student to two branches of economics, microeconomics and macroeconomics. Microeconomics is the branch of economics which studies the choices of small economic agents such as the individual, household, firm and government. Note the prefix *micro*, meaning “small”. Macroeconomics is the branch of economics which studies large-scale economic phenomena, such as unemployment, inflation, monetary and fiscal policy. In macroeconomics, the economy is the unit of analysis rather than the individual. Note the prefix *macro*, meaning “large”.

This course is an introductory course in economics. While the course is designed for students who take only this course in economics during their college study, it will provide a solid foundation if the student chooses to continue their study in economics. No previous knowledge of economics is necessary or assumed. The student should, however, be comfortable with high school level algebra and graphing.

EXAMS

Given the incredibly compact nature of the summer schedule I am unable to give any make up exams or early exams. The only exception is for student athletes with scheduled events on the date of the exams. Please check into this immediately and let me know as soon as possible. I require a signed letter from your coach or the athletics department. I allow for you to drop one exam score for your recitation grade so if you must miss an exam your overall course grade does not need to suffer. To reiterate, there will be **no make up exams**, please do not ask.

RECITATION

The primary purpose of recitation is to increase your understanding of the material presented in lecture. TAs will briefly review the theory covered in lecture, followed by examples and practice problems. Recitation will be particularly helpful in preparing you for exams.

TAs will discuss their grading policies during the first class of recitation.

Recitation and TA Information:

Recitation will begin on Wednesday 6/2. Due to Monday recitation being canceled because of the holiday the

The following schedule is *tentative* and is subject to change. I will make announcements in class and on my website of any changes. Also, please note that in some cases we will only study part of a chapter so linking up your notes to the book will be important as you study.
